

DH SOLAR TRACKER

The Horizon Tracker has been in use for over 20 years. The tracker started out as our Horizon to Horizon in the Commercial Satellite industry and is in use at many TV Stations throughout the US. The tracker is proven in the field and is now available with solar panels for those going Green! Tracking can increase energy production efficiency up to 40%.

The Future is Now!

Do your part

Make
the world
a
better place!

GO SOLAR!
